

# D21XFV EKEY SLINE

# IP VIDEO DOOR STATION

For single-family houses and commercial buildings with up to 2 units With cut-out for ekey sLine Fingerprint Reader Module 1 or 2 Call Buttons

# ANSWER YOUR DOOR ANYWHERE.

## **ADVANTAGES**

# HOW DOES IT WORK?

Imagine, you are not at home and your children have locked themselves out or the courier wants to deliver a parcel. With DoorBird this is no longer a problem. Every time someone rings the doorbell you will get a push notification on your smartphone or tablet. Via the DoorBird App you can talk to visitors and also see them live in HD quality. You will never miss a visitor again. With DoorBird you are on the move and yet at home, even if a burglar rings at the door to check if someone is at home.

# SMART HOME STARTS AT THE FRONT DOOR

DoorBird is the smart solution for your house entrance. Simply connect your DoorBird IP Video Door Station to your smartphone and talk to your visitor – anywhere you are. The IP Video Door Station can be used as a stand-alone unit or can be integrated into an existing Smart Home platform. Even existing classic installations such as an electric door opener can still be used and controlled via the DoorBird App.

# QUALITY MADE IN GERMANY

All DoorBird products are designed, developed and produced by Bird Home Automation Group in Berlin, Germany. We manufacture all products with the greatest care and precision, and deliver them to our customers all over the world.

### Open API

 Local interface for integration with third-party systems and SIP

### Video and audio call

 On smartphones, tablets (iOS, Android), IP and landline phones (SIP)

### Smart Transmission Mode (STM)

 Real-time audio / video communication, optimized for mobile devices via WiFi, 3G, 4G, 5G

# Smart Home & NVR compatible

 Control4, Loxone, Crestron, Synology, AVM FRITZ!Fon, URC, QNAP, RTI, ELAN, Fibaro, Bang & Olufsen and others

### Microphone

· Clear voice transmission

### Automatic door buzzer

 For use in medical offices and office environments

 Ultra wide-angle, hemispheric lens, 180°

# Motion sensor with 4D technology

 Distance up to 10 m adjustable via App (interval: 1 m)

# Free visitor history

 Store still images for free, optional video recording available

# Light sensor

· For night vision mode

### Call button

· With backlit nameplate

# Individual action schedules, e.g.:

- RFID card "abc" has only access on Wednesday from 9 am until 11 am
- 4D motion sensor switches on external lamp between 9 pm and 6 am

# Integration option for ekey sLine fingerprint reader

 Front panel prepared for ekey sLine fingerprint set, not included in delivery

# Easy connection to the network

 Connection via a network cable or bell wire via 2-Wire Ethernet PoE Converter "DooBird A1071" (PoE, network data)

# Geofencing

 Automatic door and gate opening when returning home

Noise reduction and echo cancellation (AEC, ANR)

# Two freely configurable bi-stable switching relays

- Two doors or gates can be controlled via App
- Status configurable via App: temporary or permanent circuit

# IR Night vision

· With 12 Infrared LEDs

### RFID reader

 Configurable remotely via App (e.g. time frame)

# **TECHNICAL SPECIFICATIONS**
