

GS1 Germany GmbH | Postfach 300251 | 50772 Köln

**Confirmation of
Participation in the Global GS1 System**

GS1 Germany hereby confirms that the company

Bird Home Automation GmbH, Berlin

participates in the global GS1 system and has been allocated with the following Global Location Numbers (GLN):

**GLN
42 514896 0000 7**

These Global Location Numbers can be used to create Global Item Numbers (GTIN) for products and services or Serial Shipping Container Codes (SSCC) to label packing units.

They are not valid to allocate further Global Location Numbers for branches or warehouses.

By using the GS1 system, the company named above has chosen to embrace the GS1 standards, which are unique on the international stage and do not overlap with any other standards. Thus the conditions required for the cross-company, transnational and industry-wide movement of data and goods along the supply chain are met.

GS1 Germany - as a member of the international GS1 community - represents the internationally valid GS1 standards for the German market.

Cologne, October 25, 2019
