

APP SOFTWARE DEVELOPER (F/M/D)

Under the brand DoorBird, the company Bird Home Automation GmbH develops, produces and markets high-quality IP video door intercom systems worldwide. In addition to the company headquarters and production site in Berlin, there are further branches in San Francisco and Jacksonville, USA. With about 130 engaged employees we are proud to be one of the market leaders in the field of smart home products.

DoorBird is part of the ASSA ABLOY Group, the world's leading manufacturer and supplier of locking solutions and security systems that meet customers' high demands for security, protection and ease of use.

To strengthen our team at the Berlin-Kurfürstendamm site, we are looking for an **App Software Developer (f/m/d)** to start at the earliest possible date.

#### Your tasks:

- Conceptualization, design, and further development of our native apps for iOS, Android, and web apps.
- Communication with our firmware development team to coordinate the required interfaces (including REST, HTTP, RTSP, JSON, etc.)
- Implementation and testing of new software components

#### Your profile:

- Practical experience in native iOS app development [Swift] is mandatory
- Experience in Android development [Java], web app development [React, Java], and Objective-C is desirable
- A completed degree in computer science, business informatics, or a related field is advantageous
- You enjoy working on-site as part of a team
- Good language skills in German and English

**With us you can expect:**

- Independent and team-oriented work in small groups
- Varied and responsible tasks with exciting projects
- Close cooperation with experienced experts on globally successful products
- An open and family-friendly working environment
- Development opportunities within the company
- A secure job in an established company with an inspiring corporate culture, flat hierarchies, and fast decision-making processes.
- Discounts through our employee portal
- Various perks to enhance your work life, such as a company bicycle program, regular team events, a rooftop terrace, unlimited beverages, and fruit at the workplace.

If you are someone who wants to work with modern methods and technologies in a secure company, then you are in the right place with us.

**Apply now!**
