

SENIOR C/C++ SOFTWARE DEVELOPER (F/M/D)

The Bird Home Automation Group, based in Berlin and San Francisco, is a family-run medium-sized company with around 120 employees and Germany's leading manufacturer of IP video door intercoms. We develop and produce in Berlin and sell our products worldwide.

To strengthen our team at the Berlin-Kurfürstendamm location, we are looking for a Senior C / C++ Software Developer (f/m/d) to start as soon as possible.

Your tasks:

- Conception, design, and further development of the firmware and tools of our products
- Adaptation of our firmware to the interfaces of our cooperation partners (e.g. SIP, HTTP, RTSP)
- Implementing and testing new software components

Your profile:

- Completed studies in computer science, informatics, or comparable
- Minimum 3 years of practical experience in the development of C / C++
- Desirable: Knowledge of Linux, C / C++, knowledge of common data interfaces (TCP/IP, SPI, UART, I2C, USB, Bluetooth, W-LAN)

With us you expect:

- Mobile working (home office) model
- Varied and responsible activities in committed teams with exciting projects
- Possibility for mobile working
- Pleasant working atmosphere and an open and family-friendly working environment
- Roof terrace for employees as well as free fruit and drinks and team events
- Close cooperation with experienced experts on globally successful products
- A secure job in an established company with an inspiring corporate culture, flat hierarchies and fast decision-making processes
- Independent and at the same time team-oriented work in small groups
- Future prospects with very good development opportunities

If you are someone who wants to work with modern methods and technologies in a great team, then you are exactly right with us!
